**initial commit**  
 A-Shalchian committed last week

4717723  

Important Notice: Starting April 1st, 2025, OSx/macOS builds will no longer be supported due to the end-of-life (EOL) of VMWare support for macOS infrastructure.

If you have **SSH keys** defined for your repositories, please review their settings now. The new Share ssh keys with forks (PRs) repository setting are present and set to ON for repositories already in Travis CI in order to not break existing build setups.
